MOVEMENT PISTOL I

6 HOURS

Members & Guests	\$160
Non-Members	\$190

This course is designed to make the shooter more comfortable moving with a firearm in his hands, to remove the range scars most of us develop in a square and static range. The students will be exposed to basic and intermediate movement drills that will develop a shooter's confidence and muzzle awareness while moving. Through Kinesthetic and Cognitive drills we desensitize the brain and body to stress which allows it to work more efficiently and effectively. This in turn allows the shooter to make better, clearer and more controlled decisions, be situationally aware of his environment, as well as problem solve issues that come up during a critical event.

****Participant Should Expect Light-Moderate Physical Exertion.****
