

HOMESTEAD

TRAINING CENTER

VEHICLE DEFENSIVE PISTOL

8 HOURS

Course Cost:	\$230
---------------------	--------------

The Vehicle Defense Pistol Course will be covered in two parts, live fire and Force on Force (SIM). Part one is designed to educate the participant on how to defend themselves, family or friend, from in and around a vehicle. As an example, the average commuter spends an estimated 1 to 3 hours each day in traffic. As such, learning to defend yourself in this type of environment is essential to your safety. During the course, students will engage targets inside and outside the vehicle, will work to effectively exit and move from within the vehicle and achieve an appropriate cover position. Participant will be shown the truths and misconception of how bullets behave when striking the vehicle, including glass. Part 2 of the course will cover Force on Force (SIM) scenario. Students will apply the techniques and methods learned during the live fire portion, against a live opponent.
