NVG & LOW LIGHT OUTLAW STEEL RIFLE MATCH

****REGISTRATION 1800-1930****

Course Cost	\$50
--------------------	-------------

This event is a NVG or Low Light Rifle "OUTLAW" Steel Match. We'll have 4 or 5 stages of rifle steel engaged from distance between 25 to 75 yards. Two stages will be the mid to long range stages and 2 or 3 stages will be the close distance stages, all shot with rifle. Each shooter will stand in a box and engage all steel plates in any order but has to finish by hitting a designated stop plate last. Each shooter will have the opportunity to shoot the stage 3 times, best time will be recorded. Shooters choosing to shoot the stage with a weapon light, must shoot the stage with that light. If using NVG's, an IR laser has to be used. Shooters need to register on-line at shoohhc.com/training . If shooters would like to get their score for the match they must click on the practicore.com link within the registration page. We will also hold open registration at HTC from 1800 and ends at 1930hrs, promptly. How fast can you efficiently shoot the plates, whether using NVGs, a gun mounted light.

If you have any questions, please contact shoohhc.com or [tacuptraining](https://www.instagram.com/tacuptraining) on Instagram.
